### **EXAMINER'S AMENDMENT**

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The application has been amended as follows: In the specification, on page 8 at line 1, the first occurrence of "to" have been corrected to –two—for correction of a minor typographical error.

2. The following is an examiner's statement of reasons for allowance:

Claims 7-14 recite, inter alia, a method of integrating a fused fiber collimated coupler into an optical unit comprising inserting the fused fiber collimated coupler into a coupler holder, aligning the coupler with a fiber bundle array so that the individual fibers of the fiber bundle array are aligned with individual fused fiber optical elements of the collimated coupler, and permanently affixing fused fiber collimated coupler to the coupler holder.

The art of record does not disclose the above limitations, nor would it be obvious to modify the art of record so as to include the above limitations.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
